

Christine Henry

She has a good match with Julian (see Attachment 1) and with his Goldsmid 5th cousin Ed Barrow (see Attachment 2). Julian and Ed are Barrow 4th cousins (an example of their well-known match is shown in Attachment 3). If their Goldsmid ancestors were related, there may be a common match.

Indeed she has a lesser match with both Julian Land and Ed Barrow at the same site on Chromosome 22 (these matches are shown below in the 2nd and 3rd charts), but do Julian and Ed match here? The 1st chart shows a small match at the same site – all matches found with the help of Q-match on GEDmatch using Precision 5. This suggests that Christine's ancestral Hannover Goldsmids were closely related to the Barrows' ancestral Cassell Goldsmids.
